

## **Invasive Plant Species Management Contractor List**

Finding a reliable and experienced contractor is critical to the success of your project. It is up to you which contractor you choose, but it is heavily encouraged to speak with your contractor and ensure they have the necessary qualifications and experience to do your work. For any projects requiring herbicide application, ensure your contractor is licensed to apply pesticides.

Choosing a contractor is your responsibility. Below are contractors in Loudoun County who may be qualified to do your work:

[Invasive Plant Control](#)  
[Wetlands](#)  
[JR Landworks](#)  
[Riverbend Landscapes & Tree Service](#)  
[The Tree Surgeon LLC](#)  
[Patriot Tree Service](#)  
[Veterans Land Rescue](#)  
[Potomac Tree and Shrub Care](#)  
[Nature Works](#)  
[Edwin's Tree & Garden Services LLC](#)

**This list is by no means complete. Loudoun Soil and Water Conservation District neither endorses nor encourages one contractor over another.**
